## **Water Stories for Children's Time**

### **2024**

# Lesson 1

## Clean water – Pipes and faucets

# Nepal

# Nepal

A group of children are gathered around a metal water station. A young boy in a white shirt is reaching up to turn a handle. Another child in a yellow patterned dress is holding a clear plastic bottle under the spout. A woman in a blue floral dress is standing behind them, and another child is partially visible on the right. The background shows a wooden structure and some laundry hanging.
